### **INTERPRO Technology, Inc.** introduces **'Followme™'** Shared Branch ATM solution to its Terminal Driving Platform

Rochester, MI – INTERPRO Technology, Inc. announced today that it has developed an application that allows Shared Branch services at Diebold image enabled ATMs.

'Followme™' as it is called will expand Shared Branch transaction services to your ATMs while maintaining the existing ATM transaction set and functionality. Currently Shared Branch Services are only available at credit union branches and specific kiosk locations.

"Our personal Teller will guide members through the selection methods and each step for completion of a shared branch transaction" said Kevin Ouellette, President and CEO. "We are continually expanding our application software and transaction sets by leveraging new technology to enhance the member experience at credit union ATMs".

'Followme™' supports the following transaction requests:

- Member Verification
- Account Inquiry
- Statement Print
- Cash Withdrawals
- Check and Cash Deposits
- Transfers
- Payment by Check
- Payment by Cash
- Payment Transfers

The application is scheduled for testing and certification with the FSCC network and is available for installation now.
